BAILEY LADDERS

PRO AL EXT. LADDERS WITH LEVELLERS

INDUSTRIAL 150KG

FEATURES:

- 5 Year Manufacturer WARRANTY*
- Factory fitted ladder levelling system allows for safe use on uneven surfaces
- Durable PUNCHLOCK® D rung construction providing superior climbing comfort
- Interlocking stiles provide increased resistance to side sway and bounce providing a more secure climbing experience
- Rung wear pads provide protection and easier raising and lowering the ladder
- 8mm kernmantle rope with a side rope and pulley system
- PVC boots provide superior slip resistance
- Large rung braces for increased strength
- 150kg load rating and industrial duty rating make the ladder suitable for commercial applications
- Made to Australian Standards AS1892

LARGER TOP GUIDES
Larger top guides that strengthen the connection between interlocking stiles

FULLY ENCLOSED END CAPS
Fully enclosed end caps that protect the end of the ladder stiles

8MM KERNMANTLE ROPE
8mm kernmantle rope provides additional comfort when opening and closing the ladder and is resistant to shrinkage and stretch

EZY-GLIDE
"Ezy-Glide" rung wear pads protect the rungs and make it easier to open and close the ladder

LEVELLER POS
Leveller POS for effective communication between the levelling function and operating instruction

CLUTCH DESIGN
Clutch specifically designed for easier operation and fast clutch engagement
